*Excursion with E-Mtb

The wind, the brackish and the high ground that join the sea of San Vincenzo with the medieval village of Campiglia Marittima and the wonderful sunny slope of Montesolaio blend in the essences that release their excellent wines

The route starts from the rental, continues for a secondary road, crosses the hamlet of Campalto and climbing up the ancient road of Pozzanello reaches the village of Campiglia Marittima. Streets, alleys, staircases and stone arches of this historic town, still exude the smell and charm of the Middle Ages. From the historic center of the village, through a single track in the woods, we approach the estate of Castello Bonaria. Crossing the main entrance we pass through the lush rows until we reach the beautiful terrace of the winery of Montesolaio, from where you can admire the entire Val di Cornia
